

SIGMA1

Technical and Safety data sheet

SECTION 1 : Chemical product Identification

Sigma1 is a concentrate of four active solvent mixture, high efficient to dissolve wax, bitumen and fatty.

SECTION 2 : PHYSICAL PROPERTIES

Physical form	: Liquid
Color	: Pale Yellow
Density at 25 °c	: 0.75 ±
Flash point	: > 100 CC
Boiling Point	: Min 175°
Odour	: Solvent

SECTION 3 : SIGMA1

Is high efficiencies to dissolve wax, fatty and bitumen in the petroleum well .

SECTION 4 : SIGMA1

Is supplied in steel drums of 200 liters capacity.
